Profile

A motivated computer science undergraduate with a strong foundation in programming, problem-solving, and database management. Passionate about applying knowledge through academic projects that simulate real-world challenges. Skilled in Java, Python, C++, and SQL, with excellent research and self-learning abilities. Aiming to gain hands-on experience in software development and contribute to impactful projects.

Education

2022 – 2026 **Bachelor's in Computer Science**
Mecca, Saudi Arabia *Umm Al-Qura University*

Skills

Technical Skills

- **Programming Languages:** Java, Python, C++, HTML
- **Database Management:** SQL
- **Development Tools:** Visual Studio Code, Eclipse, GitHub

Soft Skills

- Time management and organization
- Communication and teamwork
- Adaptability and willingness to learn

Academic Projects

- **Student Registration System:** Developed using **Java** and **SQL** to manage student data efficiently.
- **Employee Database System:** Designed and implemented a database using **SQL** to securely store employee information.
- **Task Management Application:** Built a **C++** desktop application for task organization.
- **Software Documentation Project:** Created comprehensive documentation for a university project, explaining the system architecture and user guides.

I have also worked on several other projects that have further enriched my skills in programming, software development, and data management.

Activities and Interests

- Self-paced learning in programming and database management.
- Exploring new programming frameworks and software development methodologies.
- Engaging in problem-solving and algorithm challenges.

Languages

- **English:** Proficient in reading and comprehension.
- **Arabic:** Native language (Fluent in speaking, reading, and writing).
